## Introduction

Perplextor's Hibernation Sound Set is a very special sound set - creative manual sound design - with a lot of unheard sounds being only possible with the wide range of sound tweaking features of the unrivaled fantom engine.

Most of the sounds make heavy use of the fantom's realtime controllers. This is not a simple sample set reproducing sounds of another machine. This is Fantom Power at it's best. Chill out and hibernate ...

The **29 MB** sound set contains **256 patches** with some patches relying on multisamples and some patches using waveforms only present on Fantom-X and XR. So look for compatibility and loading instructions within this manual.

## Patch List

No.	Patch	Sample	Multisample	Fantom-X, XR	Fantom-S, Xa	Juno-G
1.	.Magician		X	X	X	
2.	.Stargazer	X		X	X	X
3.	.Sparkles	X		X	X	X
4.	.Sparkling	X		X	X	X
5.	.Sparklets	X		X	X	X
6.	.Moonbase	X		X	X	X
7.	.Emulator	X		X	X	X
8.	.Exciting		X	X	X

3.	Ether	C1-A4 – Sample 31 Bb4-B7 – Sample 32

## Loading Instructions

The sound set is published as a Roland folder ready to copy onto a memory card for Fantom-X, XR owner. Although losing functionality Fantom-Xa, Fantom-S, Juno-G owners could use the sound set if they copy the samples in an empty SMPL folder within a Roland folder, load all samples and transfer the Roland library file (hibernation.fxl for Fantom-Xa / hibernation.jgl for Juno-G / hibernation.fsl for Fantom-S) via MIDI with the Roland Librarian.

**Tip:** Fantom-X owners could use the Hibernation Sound Set in the internal 32 MB Flash RAM. Be aware that you have to change all card memory references to user memory then.

### Fantom-X, XR

1. Copy the Roland folder to an empty formatted memory card.
2. Load all waves on memory card.

### Fantom-S / Fantom-Xa / Juno-G

1. Copy all waves from \ROLAND\SMPL to the same position to an empty formatted memory card.
2. Load all waves on memory card.
3. Build the 3 Multisamples as shown in the Multisample List.
4. Open the hibernation.fxl, hibernation.jgl or hibernation.fsl with your Roland Librarian and transfer it to your device via MIDI.

## License

### Perplextor's Hibernation Sound Set

<http://www.perplextor.de>

Please read the terms of the following software licence agreement before using this software.

The sound samples, patches and data files in this sound set remain the property of Perplextor and are licensed, not sold, to you for use on your sampling and hard disc-recording equipment. Perplextor reserves any other rights not expressly granted to you.

All lending, renting, copying, duplicating, trading or reselling of this product or its contents is strictly prohibited. You also cannot upload or download this product, or any of the sounds on it, to any database, BBS or server. In effect, any such action is piracy, is therefore illegal, and will be prosecuted to the fullest extent of the law.

The right to use enclosed sounds is granted to the original end-user of the product (Licensee) and is NOT transferable - this means you cannot sell any sound set second hand. By the same logic you cannot use any sounds from the sound set legally in productions.

What you CAN and CANNOT do with the contents of this sound set:

1. You can use them in any type of music production, for example: making records, remixes, commercials, jingles, commissioned pieces, soundtracks for film, theatre, musicals, computer games and multimedia. You may modify the sounds.
2. They can NOT be used for making music or sounds that will be licensed or sold as Library Music, Sound Clips, or other Sampling products. The individual sounds cannot be used on their own as "music" background noises or Sound FXs in computer games, multimedia productions etc. They are only to be used as material for producing music. Per definition they are not music in themselves.

Licensor will not be responsible if the contents of this sound set do not fit the particular purpose of the Licensee. The sounds provided are licensed "as is" without warranties of any kind. All rights reserved.

Neither the producer, nor Perplextor, nor any distributor of Perplextor products can be held responsible for any direct or indirect or consequential loss arising from the use of this product in whatever form.
